School Lands Fund:

This fund is administered in accordance with the provisions of section 40, chapter 113, R.S.C. 1927, which reads as follows:

"40. All moneys from time to time realized from the sale of school lands shall be invested in securities of Canada to form a school fund, and the interest arising therefrom, after deducting the cost of management, shall be paid annually to the government of the province within which such lands are situate, towards the support of schools organized and carried on in accordance with the law of such province; and the moneys so paid shall be distributed for that purpose by the said government in such manner as it deems expedient."

As at August 31, 1935, the fund amounted to \$13,785,030.97, made up as follows: 5,994.91 Debentures of the Dominion of Canada: (a) Issued in settlement of the sum standing to the credit of the fund when the Natural Resources were transferred to the Province on October 1, \$9,564,569.20 (b) Purchased by the Province since October 1, 1930, from payments of principal on school land sales 283,069.59 9,847,638.79 Unpaid principal on school land sales: (a) Not due \$2,241,999.71 (b) Due or in arrears 1,689,397.56 3,931,397.27 Total \$13,785,030.97

In addition to the foregoing, there were approximately 6,400,000 acres of unsold school lands at August 31, 1935.

Subsidies:

Under the terms of The Alberta Act the Province receives certain annual subsidies from the Dominion of Canada. The capital value of these subsidies is not shown as a liability in the balance sheet of the Dominion, and has therefore been excluded as an asset from the accounts of the Province, although there is a definite annual obligation on the part of the Dominion to pay certain fixed sums. For the purpose of information only, the capital sums which at 5% would yield the 1935-36 revenue are shown hereunder:

Government and legislation	\$ 3,800,000.00
Per capita grants	12,272,000.00

Allowance in lieu of Crown lands	11,250,000.00
	das 420 500 00
	\$35,429,500.00

Resources:

Under the terms of the Natural Resources Agreement, the Dominion transferred to the Province on October 1, 1930, 87,676,890 acres of land, including approximately 6,400,000 acres of unsold school lands held in trust, together with the benefit of all mines and minerals of the Province formerly vested in the Dominion. No attempt has been made to value these assets. The balance sheet includes, at a conservative valuation, amounts due under leases, or agreements.

The Royal Commission on the Natural Resources of Alberta, appointed to inquire and report whether any consideration should be paid to the Province as compensation for resources alienated or otherwise disposed of by the Dominion during the course of its twenty-five year administration, recommended that the Dominion pay the Province the sum of \$5,000,000.00 with interest from Oct. 1, 1930. Pending ratification of the award by the two governments, this asset has not been included in the balance sheet.

Edmonton, January 27, 1936.

Statement No. 9.

The above Consolidated Balance Sheet has been prepared under my direction from the books and records of the Government of the Province of Alberta as at August 31, 1935. Investment in Alberta Government Telephones is shown in accordance with adjustments recommended by an independent telephone engineer in his report of April 21, 1934; items transferred from revenue-producing assets to capital losses are set forth in Schedule C.7. General assets are shown at original cost, provision for depreciation being limited to the amount of the sinking fund reserve. Loans, advances and accounts receivable are subject to realization. Deferred charges and capital losses are valueless.

The above Balance Sheet does not include:

INDIRECT LIABILITIES (September 30, 1935):

(a) Principal receivable from the sale of Provincial lands amounting to \$137,549.95; the value of unsold Provincial lands; and the value or benefit from natural resources of the Province formerly vested in the Dominion and transferred to the Province on October 1, 1930.

\$ 8,937,410.13

(b) Capitalized value of Dominion of Canada subsidies estimated at \$35,429,500.00, on the basis of the amount required at 5% to yield the 1935-36 revenue from that source.

(c) The award of the Royal Commission on the Natural Resources of Alberta. This Commmission recommended that the Dominion pay to the Province the sum of \$5,000,000.00, with interest at the rate of 5% per annum from October 1, 1930, as compensation for resources alienated or otherwise disposed of by the Dominion during the course of its 25 year administration.

Subject to the foregoing remarks and subject to provisions which may be necessary for depreciation of public works and undertakings or for losses arising from non-collection of loans, advances and accounts receivable, the above Consolidated Balance Sheet, in my opinion, is properly drawn up so as to show the true financial position of the Province at August 31, 1935.
